## MUNICIPAL OWNERSHIP FOR PETALUMA.

MUNICIPAL ownership is agitating Petaluma and the Trustees of that city, deferring to the wishes of a large number of their constituency, on Monday night last, unanimously passed a resolution that a committee be appointed from its members to consider the proposition of that city owning and controlling its own water and lighting systems. The resolution having passed without a dissenting voice Trustees Anderson, Walsh and Veale were appointed as such committee, all of whom are staunch advocates of municipal ownership of public utilities. It is proposed to bond the town and secure a larger and better supply of water for domestic, fire and electric power purposes from the west side of Sonoma Mountain which is noted for its sparkling streams and flowing springs. As Petaluma is a wide-awake and up-to-date town where the kicker and calamity-howler is brushed aside and relegated to obscurity it goes without saying that should the proposition of municipal ownership be recommended by its Trustees and submitted to the people of progressive Petaluma that it will carry almost unanimously. Sonoma is the only municipality in the State that has voted down such propositions and that is why we are likened to Milpitas and given the halo!

HON. EMMET SEAWELL, the lawyer of Santa Rosa, is a peach when it comes to defending a client and no mistake. He recently was retained to defend Dan Scott, who apparently without just cause or provocation, clubbed a fellow aborigine almost to death. Everybody said the accused would be convicted as there appeared to be no extenuating circumstances in the prisoner's favor whatever and he had little or no money with which to make a defense. When the case came on for trial in the Superior Court of this county Saturday last attorney Seawell, who was defending the accused, actually convinced a hard-headed jury that the defendant was justified in attempting to kill his would-be victim because he "attempted to alienate his wife's affections," and Ross was promptly acquitted. To those familiar with the Digger tribe of Indians, who have little or no regard for virtue, a verdict secured by such a unique defense, will strike them as most remarkable. But there are lawyers and there are lawyers.

THE California Northwestern Railway Company has made many substantial improvements along the Sonoma Valley Branch the past year. New and handsome depots have been built at Ignacio, Vineyard and Verano and this week the company has completed the building of a 40,000 gallon water tank at Glen Ellen. This company is thoroughly alive to the interests of Sonoma Valley and was the real factor in introducing the thousands of visitors here during the past season. R. X. Ryan, the General Passenger Agent of the California Northwestern, has proved himself a master mind in attracting the attention of the outer world to the beauties of Sonoma Valley as a resort and resting place for the rushing throngs of the metropolis. The introduction of these visitors has been the means of many handsome and commodious summer resorts springing up in this valley the past two years as if by magic.

THE will of the late President McKinley was admitted to probate at Canton, Ohio, last week, and Judge Wm. R. Day and Private Secretary George B. Cortelyou were appointed administrators. The estate is valued at \$210,000.

THE weather the past week has been very favorable for grapes and those vineyards that were backward will be ready for the grape-pickers next week.

THERE will be a meeting of the Woman's Club in Union Hall next Saturday afternoon at 3 o'clock.

## A WISE SELECTION.

PRESIDENT HARRIMAN, the new executive head of the Southern Pacific Company, has made a wise selection in appointing Julius Kruttschnitt his assistant and representative on this coast. He is an able railroad man and thoroughly in touch with the business interests of every section through which the Southern Pacific passes. He is very popular in railway and newspaper circles and in fact with everybody with whom he has business dealings. With other members of the California Press Association on the trip through California, Arizona, New Mexico, Texas and Louisiana last February we were greatly impressed with his unostentatious efforts to make the trip over his railway system a pleasant one for the journalists and their wives. We have no hesitancy in saying that the appointment of Mr. Kruttschnitt, who possesses great executive ability, will go a long way toward assisting the Southern Pacific Company in its efforts to populate California and make it the greatest State in the Union.

## SOME STATISTICS.

HON. E. P. COLGAN, Controller of State, has favored us this week with a tabulated statement of the value of property, the indebtedness and tax levy of each of the fifty-seven counties in California. Sonoma county's indebtedness is \$113,000, balance due on subsidy bonds issued to the Donahue railroad company many years ago. This indebtedness, originally \$300,000, is being gradually extinguished. In point of wealth Sonoma county is exceeded by only six of the other counties in the State, to wit: San Francisco, Los Angeles, Alameda, Sacramento, Santa Clara and Fresno. San Francisco, with an assessed valuation of \$413,388,420, is the richest county, and little Alpine, with only \$300,828 to her credit, is by far the poorest, particularly when she is groaning under a tax levy of \$2.65. Out of all the counties only eight have a lesser tax levy than Sonoma. These counties are Colusa, \$1.40; Glenn, \$1.60; Kern, \$1.50; Marin, \$1.62; Monterey, \$1.50; Santa Clara, \$1.50; Tulare, \$1.50; Yolo, \$1.35. Sonoma county's tax levy is \$1.63.

F. E. DRAKE, the Petaluma painter, who shot and attempted to kill his wife, has been sentenced to fourteen years in the penitentiary by Judge Burnett. The sentence is a just one as Drake's wife is a hard-working and virtuous woman and the cowardly brute attempted her life in a most wanton manner. But then women will be women, and when the would-be wife slayer was about to be lugged off to jail by a horrid Deputy Sheriff—and by the way his name was Toombs—the foolish creature actually made a rush for her brutal spouse and imprinted a kiss on his lips. Ugh!

## Children's Fertilizer.

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers.

The nature of some children prevents them from thriving on ordinary food. Such children grow right if treated right. All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment.

Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for.

## A Minister's Mistake.

A city minister was recently handed a note to read from his pulpit. Accompanying it was a clipping from a news paper bearing upon the matter. The clergyman started to read the extract and found that it began: "Take Kemp's Balsam, the best cough cure." This was hardly what he expected, and, after a moment's hesitation, he turned it over, and found on the other side the matter intended for the reading.

## MISCELLANEOUS.

### Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not do without it. He has been troubled with rheumatism since he was a boy, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take his place in the field." Miss ADA DORR, Sidney, Iowa.

## THE WOMANS' CLUB.

Seventy-five Members Present at the Meeting Held in Union Hall Saturday.

The ladies of Sonoma Valley turned out en masse last Saturday afternoon to attend the meeting at Union Hall called for the purpose of organizing a Woman's Club. They came from all parts of the valley and when the meeting was called to order by Mrs. Stearns, the temporary chairman, there were at least seventy-five ladies present, all of whom enrolled, their names as members of the new organization and took a lively interest in the proceedings.

It was decided to postpone the election of permanent officers until the next meeting which will be held at the same place on Saturday, October 19th.

A committee of eight ladies was appointed to draft a constitution and by laws and report at the next meeting.

The new organization, which will be known as The Woman's Club, has for its purpose the improvement of town and valley, and its membership will in all probability

exceed two hundred when thoroughly organized.

It is earnestly desired that each and every lady of this valley join the club and lend her aid to help improve the Plaza, the sanitary condition of the town and many other things that only a woman can see to be done. In many of the towns and cities of California similar clubs are doing noble work in beautifying their surroundings and making public improvements.

Now let the ladies of both town and valley unite in making Sonoma and the Valley of the Moon worthy of the historic name.

### Has Leased Rich Mining Property.

Constable Chas. H. Ohm of this place, who recently disposed of a piece of real estate in San Francisco for \$105,000, has invested largely in mining property in Nevada county. Gil P. Hall of Petaluma and Assistant District Attorney Berry of Santa Rosa are associated with Mr. Ohm in his venture. The latter returned from a visit to his mine, one day last week, and says that Gil Hall and Joe Berry, who have had some experience in mining in Montana in his palmy territorial days, had divested themselves of the stylish toggers that they want to wear while here and donned blue overalls and calico jumpers. Gil and Joe at present are getting things in shape to commence working the mine, which is located near the celebrated North Bloomfield and Blue Tent gravel claims. The mine which consists of many acres of rich gravel deposits, will be worked by an entirely new process. Gil Hall has been chosen Superintendent of the mine, Mr. Ohm is the President and principal stockholder and Joe Berry—he is a stockholder, too, and makes the flap jacks.

### Grand Entertainment and Social.

The ladies of St. Francis' Church have completed a very attractive programme for their entertainment and social, which will be held in Union Hall on Saturday evening, October 26th. The talent will include such stars as E. Lambert, the popular organ shouter and comic singer; Walter Hay, the sweet tenor singer, and his brother Charles, who possesses a rich baritone voice. All have delighted San Francisco audiences. Prof. W. O. Hocker of the Grammar School will give comic recitations and other excellent numbers will be rendered by Sonoma favorites. The program will wind up with a farce entitled "A Game of Chance," which will be presented by six favorite amateurs from Petaluma. Dancing will follow the evening's entertainment. Refreshments will be served. Admission to the hall 50 cents.

## A Joke on a Professor.

Among some intensely amusing college scraps told by "A Graduate" in the Ladies' Home Journal is the story of a certain professor not much liked by his pupils who was to be married. The lady lived in Cleveland. And the students that loved (?) him were not of course invited. But they determined that in some way he should hear from them. And he did. On the day appointed the professor took the train at 10 a. m. due to arrive at Cleveland at 12:30 p. m. About 11 o'clock Jim Townsend rushed to the telegraph office and sent off this dispatch:

"Chief of Police, Cleveland: Man coming on train No. 6, tall, well dressed, frock coat, silk hat, side whiskers. Escaped lunatic. Hold. Shrewd, therefore beware. Strange case. Will say name Finnall. Mistake. Thinks he is professor in a college. Delusion. Escort to home of friends at No. — Euclid avenue."

This message reached its destination long before train No. 6 reached Cleveland, so that when Professor Finnall alighted it was to walk straight into the custody of three detectives. They would listen to no words of reason, but escorted him out to the house on Euclid avenue, the home of his intended bride.

The Earth's Readings. Little bendings are in progress all the time the world over. The "unmovable" hills are bowing and scraping to each other constantly. Every evening, as the dew settles in the valleys between them, they nod to one another. So likewise do the mountains, even to a greater extent. Gravity is tugging all the time.

And in London, too, where earthquake sensations are practically unknown, the earth bends daily, and the buildings, like the hills and the mountains, nod to their friends opposite. When the morning traffic begins. On Sunday usually their manners take a rest excepting in such places as Petticoat lane, where business flourishes in as lively a fashion as in Paris.

Helms said that even the trees made obeisance to Napoleon I when he entered Berlin. This was imaginative, yet truthful. For the weight of the crowd along Unter den Linden made a tilting sufficient for Professor Milne's pendulums to have recorded distinctly. One might say the crust of the earth acts like a steel spring. It bends so easily.—Everybody's Magazine.

How to Learn to Like Pictures. The following suggestions, if you please, are not from an artist nor even from a connoisseur, the writer being nothing more than an ordinary picture lover. In general the principle to be followed is to get as much in an atmosphere of pictures as possible. Always go to the museums when you are traveling, and if you live near enough make occasional picture visits to Boston, Chicago or New York. Do not make the mistake of staying too long in a gallery. You only tire yourself. Half an hour is quite long enough. But do not endeavor to look at every picture in the gallery in that time. Look long at a few good ones and let those you look at be those you like or at least those which you prefer above the others. Also ask yourself why you prefer them. Always get a catalogue. Sometimes the pictures are not marked, and you as a student want always to know the painter of your picture.—Frederic M. Smith in Woman's Home Companion.

Whale Houses. At one time not very long ago there was on the Lancashire coast, near Lytham, England, a cottage and boat-house that were made almost entirely from the remains of a score or so of whales that had been driven ashore some years before. The framework of the edifice consisted wholly of whalebone, and the dried skins of the huge creatures were neatly and strongly fastened as a covering for walls and roof. There is another building of exactly the same kind at Peterhead, in Scotland, and in this case the skulls of the whales and some of the heavier bones are used with great effect as outside ornaments.

Looked Like Economy. Uncle Hiram (just back from the big ship)—I don't think that display of burn's coat is much money as he makes out to be.

Aunt Emily—Why, I thought you said he had such a nice home in the city.

Uncle Hiram—But I didn't tell ye nothing about him havin both them little girls o' his'n playin on the same piano at once. I tell ye he's a gettin hard up.—San Francisco Chronicle.

Grade Petroleum. From crude petroleum are made kerosene, gasoline, naphtha, paraffin and vaseline. A still heavier oil, left as a residue, is used for axle grease, and the carbon is turned into sticks for electric lights. The sulphuric acid which is used for purifying the products of petroleum is recovered and turned into fertilizer for farms where there is too much phosphate rock, which is thus dissolved.

Writing For Money. Fond Father—Yes, my boy at the variety has written several articles for the magazines.

Friend—But he's not a professional writer, surely?

"What do you mean by 'professional'?"

"Why, he doesn't write for money?"

# A WORTHY SUCCESSOR.

"Something New Under the Sun."

All Doctors have tried to cure CATARRH by the use of powders, acids, gases, inhalers and drugs, and have failed. Their powders dry up the mucous membrane, causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study of the specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharge, and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts. This wonderful remedy is known as "SNUFFLES," the GUARANTEED CATARRH CURE, and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently. A d is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment of the disease. It is sold in all drug stores, or by mail, for \$1.00 per package. Send for full directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Send prepaid to any address in the United States or Canada on the receipt of One Dollar. Address: Dept. E 423, EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.
